ACCEPTANCE LETTER
Natural Vet for Pets P.C.

Dear Client,

I am honored that you are willing to trust me with the care of your animal.

As you are likely already aware, my practice is not the usual. What I offer in terms of treatment is the use of homeopathic medicines and nutritional therapy (in the form of fresh food diets, vitamin & mineral supplementation, and food concentrates). I emphasize this form of treatment because I feel it is the most effective way of dealing with a wide variety of health problems that animals face. It is my opinion that homeopathic and nutritional therapy can be used to treat the same broad range of problems that are conventionally treated with drugs. It is also my experience that this is a very successful approach using natural remedies without any side effects with conventional drugs.

However, not every problem can be successfully treated by me, and sometimes the disease is too advanced for my methods. Other times, I do not have necessary knowledge or experience or occasionally, my methods fail in spite of my best efforts. I say this not to discourage you, but rather to honestly communicate my skills and limitations.

It is important to realize that regardless of the nature of the problem your animal has and in spite of the diagnosis or prognosis that you have received from another practitioner, I am going to use the abovementioned methods and no other in the treatment of your animal. If at any time you decide to use conventional drug therapy or surgery that I cannot provide, I will refer you to another practice.

If what has been presented here is acceptable to you and, indeed, what you wish for your pet, please sign the paragraph of acceptance that follows.

Declaration of Acceptance:

I have read the above explanation of the type of treatment offered by Natural Vet for Pets P.C. I agree that this is what I want for my animal. I further state that I am not expecting any treatment other than what is described here.
